Professional Summary

I'm a results-driven Web Developer with a First-Class Honours degree in BSc (Hons) Computer Science (Software Engineering). I'm experienced in building responsive, user-focused websites and web applications, and skilled in full-stack development using modern front-end and back-end technologies. I have strong knowledge of cloud platforms and Agile development practices, along with the proven ability to deliver scalable and maintainable code in fast-paced environments with a strong portfolio of client and personal projects. This is backed up by my professional development experience along with my projects detailed in my portfolio.

Technical Skills

- Languages: HTML, CSS/SASS, JavaScript, TypeScript, SQL, C#, Python, Java, C++ (Beginner)
- Front-End: Angular, jQuery, Responsive Design, Accessibility (WCAG)
- Back-End: ASP.NET, Node.js, RESTful APIs
- Tools: Git, GitHub, GitBash, Visual Studio, Photoshop, Blender, Unity, Godot
- Cloud Platforms: Microsoft Azure, Google Cloud APIs, Microsoft Graph APIs
- Other: Agile Methodology (SCRUM), Microservices Architecture

Experience

Web Developer – Iken Business Ltd | Jul 2021 – Present

- Designed and maintained cloud-based web applications for clients in public sectors.
- Built and enhanced user interfaces with responsive and accessible design principles.
- Collaborated in Agile teams to deliver new features and fix bugs.
- Contributed to documentation, sprint planning, and code reviews within SCRUM processes.
- Review pull requests of work committed by other developers and automation testers.

Front-End Developer – eArcu | Aug 2019 – Jul 2020

- Developed customized recruitment portals using HTML, CSS, JavaScript, and jQuery.
- Liaised with clients to define visual and functional requirements.
- Conducted QA and resolved front-end issues to ensure optimal performance.

Freelance Web Developer | Jan 2019 – Jan 2021
- Delivered fully responsive and user-friendly websites tailored to client needs.
- Managed all phases of development including requirement gathering, design, development, and deployment.
- Assisted clients with hosting once development was complete.

Front-End Developer Intern – Lumesse Ltd | Jun 2014
- Supported development and integration of web-based recruitment solutions.
- Worked on both front-end and database components of client sites.

Infrastructure Engineer Intern – Lumesse Ltd | Feb 2017
- Provided server maintenance support and managed hardware optimization tasks.

Customer Service Assistant – Barclays Bank | Feb 2016
- Delivered in-person customer service and supported ATM operations.
